

Inclusion of Collective Energy Actions into EU policy : DECIDE position paper

Leen Peeters

1 September 2022

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 894255. The sole responsibility for the content of this document lies with the DECIDE project and does not necessarily reflect the opinion of the European Union.

Developing Energy Communities through Informative and collective action

DECIDE pilots and replicants

DECIDE scope

Benefiting community

Collective Energy Action

Economic and environmental benefits for the community

Effectively controlled by members or shareholders or by a third party

Voluntary: open or membership based

Not limited geographically

All types of energy sources

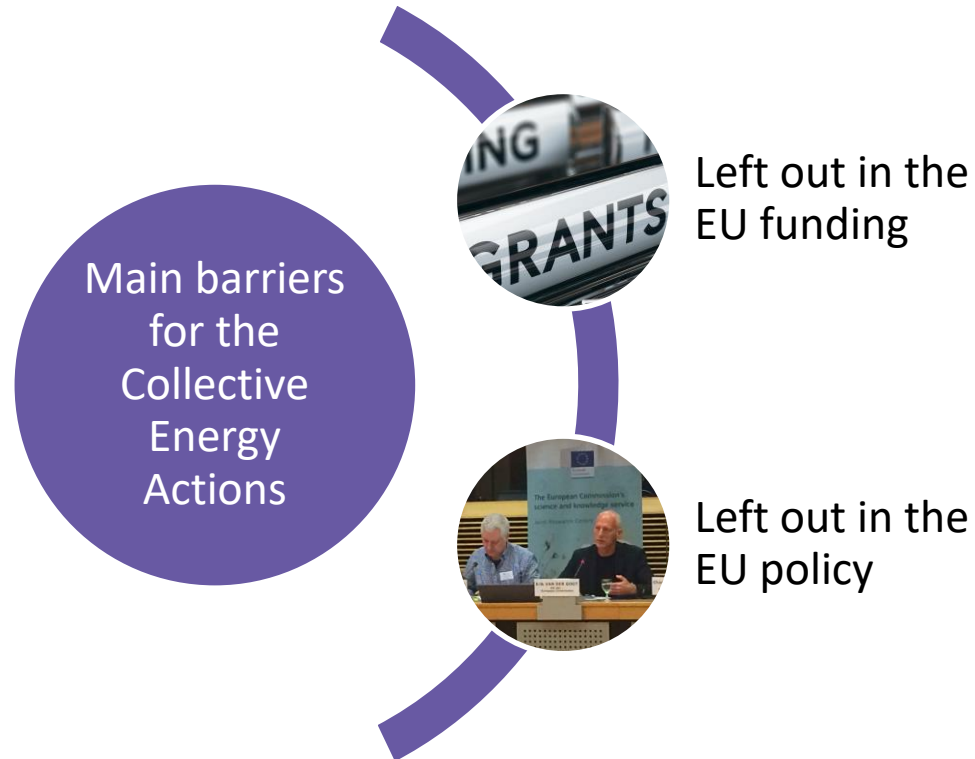

Generation, distribution, supply, storage, energy services, aggregation, energy management, electric mobility, demand side management, collective purchase/ installation of technology...

Profit or non- profit

Collective Energy Action

Collective Energy Action

KEY ENABLERS

Providing a role for energy sector actors to channel their know how and help enable energy services

Providing financial benefits from involvement in collective energy action to motivate higher involvement of civil sector

Accelerating decision making through chosen committee /representatives

Accelerating involvement in emerging energy services and practices for testing and implementation

Collective Energy Action

OUR CALL FOR ACTION

-Recognise the existence of the Collective Energy Actions in the EU research and policy

-Unlock funding and support for research projects and policy analysis to focus on a wider scope of the initiatives in the energy sector
