Hyperion at a glance

- Based in Athens
- Not-for-profit EC
- 35 members and growing
- Diversity of member backgrounds

Hyperion at a glance (2)

- Community-building actions
- Participatory planning (e.g., shared vision formation)
- Collaboration with HERON

What motivates Hyperion members?

- Experimenting with cooperative governance
- Acting as a lighthouse project for other communities and projects

**Social motives:
tackling energy
poverty**

LIGNITE

BROWN COAL

Environmental motives:
reducing personal
footprints and collective
climate action

Hyperion I
Working
Model:
Collective self-
consumption/

About Hyperion Energy Community

Hyperion has been established as a non-profit Energy Community ([Law Gazette 4513/2018](#), Ministry of Energy and Environment, one of the first transpositions of the core "prosumer" articles in the Clean Energy Package). The purpose of Hyperion is the production, distribution and supply of Renewable Energy to its cooperative members, with special focus on the development of community based solar self-consumption schemes (collective-self-consumption).

Project size: 60 kW
Renewable energy production: 93,000 kWh/year
CO₂ emissions saved annually: 79 tons*
Total investment: €40,000
Annual revenues: > €9,000
