

What is WEnCoop and how it managed to gather women around and energy project?

WEnCoop is proudly supported by: QINZEB INITIALISING Energy balance towards zero

Alice Corovessi – WEnCoop Female Energy Cooperativ in Greece

The Energy Cooperative Journey

Dec. 2020

We move forward!

The Greek
Association of
Female
Entrepreneurs
decided to start
the processes for
the establishment
of an Energy
Cooperative for its
~1700 members
across Greece.

March 2021

Training Sessions!

With the support of INZEB and other organisations, training sessions took place to answer the questions and present the initiative.

May 2021

members.

Statute Ready! WEnCoop's statute was ready and was signed by 60 female

Sep. 2021

Initial Capital!

The initial capital raised was ~400,000 euros.

Nov. 2021

Land & Permissions!

The land was bought, and the final environmental and other studies were approved by the authorities.

Jan 2022

Construction started!

The construction of the 1st PV plant of 1MW started.

Feb. 2022

1st MW completed! The 1st PV plant is completed.

WEnCoop is awaiting the OK from the authorities to be connected in the grid.

Feb. 2022

1 more MW!! WEnCoop's

members and BoD decided to proceed with one more MW. The land is bought, and the design processes have been started.

15 new members joined the Energy Cooperative, thus more capital is available.

WEnCoop plans to proceed with 2 more PV plants (1MW capacity each) within 2022-2023 Electromobility is included in the plans.

More than 150 female entrepreneurs has requested to join the Energy Cooperative.
